

Eco Schools and Green Flag Award

We are very proud to have been re-awarded our second Green Flag award, the prestigious mark of commitment to sustainability and raising awareness across the school of issues and concerns relating to the environment. The children's knowledge of their planet has improved vastly as a result of all the efforts of our Eco Committee who constantly challenge the school to be more environmentally friendly and aware of the consequences of our choices. The children meet regularly to discuss how they can improve the academy whilst supporting environmental issues.

The Eco-Committee's jobs are to:

- Ensure that the whole school is aware of the Eco-Schools programme
- Take the lead in carrying out the Environmental Review
- Ensure that everyone in the school community is represented in the decision-making process (as far as possible)
- Provide a link between pupils, teachers, senior management team, governors and the whole school community
- Take the lead in delivering the Eco-Schools Action Plan

Eco Members:

Year 2: Michaela Greenwood
 Mannan Ali
 Isobel Drummand
 Sayf Saqib

Year 3: Megan Humphrey
 Ted Barber
 Caitlin Nash
 Daniel Taylor

Year 4: Alfred Gibson
 Ciara Monterio
 James Waddington
 Cloe Hernandez

Year 5: Finnley Bamford
 Hana Hussain
 Logan Brierley
 Emily Gooding

Year 6: Evie Collins
 Esa Khan

Amber Kauser
Joe Golding

Eco Meetings

The Eco Committee meet each Wednesday morning during assembly. The Year six children take it in turns to chair the meetings and make notes in our record book. Each member has their own action plan and the group uses this to plan their own meetings. We have planned a wide range of activities this year. We also want to apply for our fourth green flag award.

Whole School Eco Targets

1. To continue to reduce the amount of energy we use.
2. To continue to reduce the amount of water we use.
3. To continue to develop and care for our new habitat for animals and insects in the outdoor quad.
4. To continue to care for our school grounds.
5. To grow our own vegetables to eat.
6. To promote a healthy lifestyle.
7. To promote walking to school using the new path.
8. To make our school litter free.
9. To continue to recycle paper and reduce the amount of paper we use
10. To learn about Eco issues around the world.
